

# Education Equity and Access Act (Original)

## Section 1. Purpose

This Act aims to improve educational outcomes for students in underserved communities through increased funding, support services, and digital access initiatives.

## Section 2. Funding Allocation

The federal government will allocate \$1.5 billion annually for the next 5 years to Title I schools.

## Section 3. Digital Access

All students in grades 6-12 in Title I schools will be provided with a free laptop and subsidized internet access.

## Section 4. Teacher Training

Funds will be allocated to support professional development for teachers on culturally responsive teaching practices.

## Section 5. Reporting and Oversight

States must submit annual progress reports on student achievement and access metrics to the Department of Education.
