

Education Equity and Access Act (Revised)

Section 1. Purpose

This Act is designed to enhance educational outcomes for all students, especially those in underserved and rural communities, by improving funding mechanisms and access to technology.

Section 2. Funding Allocation

The federal government will allocate \$2 billion annually for the next 6 years to Title I and rural-designated schools.

Section 3. Digital Access

Students in grades 3-12 in qualifying schools will receive personal learning devices. Broadband internet infrastructure will be expanded in underserved regions.

Section 4. Teacher Support

Funds will be directed toward recruiting and retaining high-quality teachers and offering training on inclusive and trauma-informed teaching practices.

Section 5. Transparency and Accountability

States and school districts must publish quarterly reports on funding use, student engagement, and access equity, audited by the Office of Educational Accountability.
